

# THE CAP/USAF RELATIONSHIP

CORPORATE LEARNING COURSE  
"CORPORATE CITIZENSHIP " BLOCK  
SEMINAR 2.5

## SEMINAR OVERVIEW

### SCOPE

As a CAP member you not only need to be familiar with your own role in the organization, but should also be knowledgeable and articulate about the relationship between CAP and the US Air Force.

During this discussion lesson we will look at the relationship between these two great organizations: the Air Force, and Civil Air Patrol. We will look at what the Air Force provides to CAP in terms of goods and services and in turn what they expect from CAP to ensure mission capability.

Through this discussion we'll see that the CAP/USAF partnership is better because members understand the mutual support functions of each organization

**OBJECTIVES:** Comprehend that supporting the CAP/USAF partnership is enhanced through members who understand the similarities of both organizations.
